## **BSE / TSE & Animal Derived Component Free Statement**

November 14<sup>th</sup>, 2017

Dear Valued Customer,

This statement is issued to verify that TriForest Polycarbonate / PETG products are made solely from synthetic plastic polymers.

No materials of animal or plant origin are used at any time in production or during product handling of Polycarbonate / PETG bottles, flasks, vials or its caps. They are never in contact with any biological materials at any time during production or product handling. These products are free from known Bovine Spongiform Encephalopathy (BSE) and Transmittable Spongiform Encephalopathy (TSE) causing agents.

All of the materials used in production or processing are certified to be Animal Derived Component Free (ADCF) products.

Sincerely,

Maquivi De La Rosa  
Quality Assurance Manager
